Objective

Enthusiastic and passionate computer engineering student with a keen interest in Java, Python, and Android development. Eager to contribute to challenging engineering projects and drive technological innovation.

Technical Skills

- *Java*
- *Python*
- *MySQL*
- *Android Studio*
- *Git & GitHub*
- *Graphics Designing*

Academic Projects

StyleMe

March - 2023

StyleMe is a Virtual Wardrobe App where user can manage their wardrobe and can create a combination of outfit for special occasion. They can make combination of outfit to see how it will look on them using our 3D-Try on feature, so they don't need to wear it for testing an outfit. We also recommend an outfit so they don't need to repeat any outfit combination.

Stock Price Prediction

Oct - 2022

In this we have created an ML model which can predict the Stock Price using the Historical Data of Stock Prices. It will show us how long you should hold the stock to gain effective profit from it. It can even tell us what quantity of stock we should buy to avoid losses or gain high profit.

Virtual Assistance for VIP

February - 2021

We have created this Android App for Visually Impaired Persons (VIP) so they can use basic functionalities of an Android Phone. The app can be used to make a phone call, sending a text message, get notified on low battery, reading a received message, text on a button after clicking it, etc.

Education

Computer Engineering (B. E.)

2021 - 2024

Jawahar Education Society's Annasaheb Chuddaman Patil College of Engineering, Kharghar

Information Technology (Diploma) CGPA - 9.34

2019 - 2021

Navjeevan Education Polytechnic Society, Bhandup

Experience

Python Developer Intern | TechnoHacks Pvt. Ltd.

Sept 2023 - Oct 2023

I have worked on some tasks and built my knowledge about Python Development.

Java Developer Intern | Oasis Infobyte

Oct 2023 - Nov 2023

I have worked on some tasks and built my knowledge about Java Development.

Extra Curricular Activity / Responsibility

Member of Graphics Team

2022 - 2023
